ABOUT ME

As a software developer I constantly work on gaining knowledge and skills in the field of programming and application design. My motto is that a sharp mind comes along with a healthy lifestyle. That is why I am both a sportsman and a developer. I am full of energy, always ready to face new challenges. I enjoy working with people. My ideal job is one that connects teamwork and challenging tasks. My working style: meeting project goals by creativity and cooperation.

CAREER GOALS

Gain practical experience in Java, Spring Boot and Docker. I also want to evolve my skills & knowledge in wearable devices and mobile applications development. Currently I am also working on preparation to earn higher levels of Oracle Java certification, especially the newest versions of Java.

INTERESTS

Mobile applications and wearable devices software development
Sport dietetics and healthy supplementation
Physiotherapeutic diagnosis and treatment
Profiled gym training systems
Psychology
Wellness

IT EXPERIENCE

JAVA DEVELOPER / 2021

NEBUCODE SP. Z.O.O / WARSAW

Designing the architecture and development of a complex role management system (users, groups, permissions) with REST API using Java 11, Spring Boot Security, Data JPA, Docker-compose & MsSQL Server. My responsibilities included designing repository, service and controller layers between React frontend and Java Entity Relationship Model, which I had to construct from existing database structure; integration of multiple backend modules; deployment of containerized via Docker-compose application to the production server

JAVA/SQL DEVELOPER / 2020

ASSECO DATA SYSTEMS / WARSAW

Development of a dedicated monolithic CRUD application in JavaFX, OracleDB. I dealt with implementing the required data structure, writing procedures in PL / SQL, creating an access layer and a graphical user interface.

DEVOPS / JAVA DEVELOPER / 2018-2020

ORANGE POLSKA S.A. / WARSAW

Development and maintenance of telecom Customer Care systems with Spring Boot, Hibernate, Java 8, microservices. As a Java developer I implemented a consultant console and a client account management. As a DevOps I carried out maintenance tasks, problem solving and customer data integration.

DIPLOMAS & CERTIFICATES

JAVA FOUNDATIONS / CERTIFIED JUNIOR ASSOCIATE / ORACLE /2020
